What our customers say	26-27

We're **still** for everyone.

We started our journey in March 2022 with one goal: to help everyone make the switch to EV. In a world of complicated jargon, complex install processes and prices that made EV ownership feel out of reach... we made a big change.

Thousands of chargers sold, multiple awards and hundreds of 5* reviews later, we're still driven by the same goal.

insider **MADE IN THE UK**
WINNER 2024

Introducing vecGO ^{2.0} our best selling charger, **upgraded**

Designed in the UK, the next generation of evec chargers combine rapid installation, reliable performance and ease of use — ready for the UK's growing demand for home EV charging.

- ✓ **5 fresh new colourways**
- ✓ **50% faster installation***
- ✓ **Reward-ready**

*vs previous model

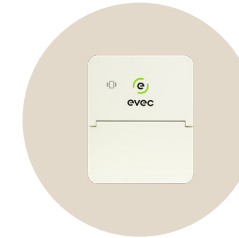

Say hello to easy home charging that matches your **style** or project

Choose from five colours:

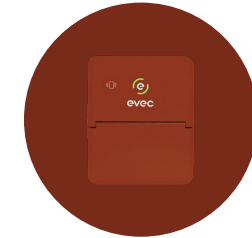

Shadow Black

Moonlight Cream

Sage Green

Deep Red

Anthracite Grey

Fancy a change?

The colours are interchangeable so you can switch up at any time.
We recommend a professional installer or electrician for cover changes.

The run down

Solar integrated
Charge up with the sun using the “ECO-mode” in our app

See your charge status
Our new LED halo-logo indicator gives you clear charger-state visibility while keeping light pollution low in residential areas.

3-year warranty
With the option to extend to 5 years for extra peace of mind

Super-fast installation
50% faster to install*. Backed by our premium installation service for installation in as little as a week

Robust and ready to go
Built to last — waterproof to IP55-65, IK10 impact-resistant, and designed for everyday use.

*versus previous model

To cable or not to cable?

Choose from untethered (VEC01-N) or tethered (VEC03-N) models depending on your preference.

The power is in your hands

Choose from 7.4kW (single phase) or 22kW (three phase) depending on your power requirements.

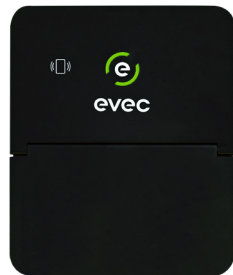

Reward-ready

Compatible with vecFLEX rewards for up to £140/year for charging normally.*

**vecFLEX rewards: £20 sign-up bonus + £10/month (£140 first year, £120 thereafter). Subject to meter eligibility, usage and market conditions. See evec.co.uk/vecflex-rewards for details.

NEW!

RFID cards

Enable Tap & Go (plug and play) mode with our **new RFID cards**, a secure way to charge up if you don't want to use the app. Each charger comes with 2 RFID cards. 50+ can be registered to each charger.

Introducing

vecFLEX rewards

The smarter way to reward your customers
(and grow your charger sales).

Scan here to find out more
or visit evec.co.uk/vecflex-rewards

vecFLEX is our brand-new grid services scheme that gives your customers real financial rewards, of up to £140 a year, for supporting a greener, more stable electricity grid. As the UK transitions to renewable energy and electrifies heating and transport, balancing supply and demand becomes essential — and vecFLEX makes every evec charger part of the solution.

Why choose vecFLEX?

- ✓ All vecGO 2.0 chargers are vecFLEX-eligible
- ✓ Every purchased or installed charger gives customers access to the UK's **highest-paying** EV reward reward scheme
- ✓ Your customers earn more: more rewards mean their charger pays for itself — faster than ever
- ✓ You sell more chargers: It's easier than ever to offer real, ongoing value

More rewards. More sales. More customer loyalty.

3-year warranty as standard

All our chargers come with a 3-year parts and labour warranty as standard*. Your warranty includes support from our technical team as well as our industry-leading 48-hour engineer callout service in the unlikely event of an issue with your charger. What's not to love?

Get peace of mind for even longer by **extending your warranty** up to 5 years.

Our extended warranty also includes extra features to make sure your charger can power your electric journey for as long as possible.

*subject to registrations within 30 days of purchase

Looking for more?

The full evec charger range is designed to help homes and businesses **vecGO**, **SPRINT** or **BOLT** into an EV future.

Plus, you can monetise them easily with **vecPAY**

vecGO

7.4kW to 22kW EV chargers engineered for installers, developers and housebuilders. Faster installs, flexible configurations and OZEV approved.

Ideal for:

- ✓ Home builders
- ✓ Large scale developments
- ✓ Developments in sensitive areas, including AONBs, where visual design is key to securing planning permission

Scan for more info
or visit evec.co.uk/vecGO-business

vecSPRINT

Wall or ground mount dual chargers in 7.4kW–22kW ideal for schools, workplaces and businesses with higher dwell times looking to offer EV charging to the public, customers or employees. All OZEV eligible and loved by businesses like Holiday Inn, Post Office and Hilton.

Ideal for:

- ✓ Schools
- ✓ Workplaces
- ✓ Businesses
